

# LARVEX

## Controls Caterpillars / Fruit & Shoot Borers Special

Powered by AARON Technology, LARVEX is a perfect blend of premium botanical extracts and essential oils. It effectively controls the larvae of various pests, including caterpillars, Spodoptera, Heliothis, DBM, and fruit & shoot borers.

With its dual-action formula (contact + systemic), LARVEX not only disrupts the larval lifecycle but also enhances plant vigor and natural resistance. Biodegradable and safe for pollinators, it's an ideal choice for Integrated Pest Management (IPM), export, and organic farming.

**Formulation :** Liquid

**SKU :** 250 ml & 500 ml

### Usage & Dose:

**Dilution:** 1-2 ml per 1 litre of water

**Apply:** Every 10-15 days via foliar spray thoroughly on crop foliage.

**Crops:** Suitable for all Crops

# FLY GUARD

## Whitefly, Jassid & Aphid Special

Powered by AARON Technology, FLY GUARD is a powerful blend of premium botanical extracts and essential oils. It's specifically formulated to control common sucking pests like whiteflies, jassids, aphids, and thrips by disrupting their life cycle.

Beyond pest control, FLY GUARD also boosts your plant's immunity. It is 100% biodegradable and safe for pollinators, making it an ideal solution for Integrated Pest Management (IPM), export, and organic farming.

**Formulation :** Liquid

**SKU :** 250 ml & 500 ml

### Usage & Dose:

**Dilution:** 1-2 ml per 1 litre of water

**Apply:** Every 10-15 days via foliar spray thoroughly on crop foliage.

**Crops:** Suitable for all Crops

# THRIPTOP

## Thrips & Mites Special

Powered by AARON Technology, THRIPTOP is a perfect blend of premium, high-performing essential oils and botanical extracts. It provides effective control of thrips, yellow mites, red spider mites, whiteflies, jassids, and aphids.

With its dual action formula, THRIPTOP disrupts pest lifecycles while boosting plant defense and nutrient uptake. This product is safe, residue-free, and ideal for integrated pest management (IPM), export, and organic farming.

**Formulation :** Liquid

**SKU :** 250 ml & 500 ml

### Usage & Dose:

**Dilution:** 1-2 ml per 1 litre of water

**Apply:** Every 10-15 days via foliar spray thoroughly on crop foliage.

**Crops:** Suitable for all Crops
